#### **Statement:**

Sweeping across the denomination is a desire to elect persons who are younger and more diverse. I support that. I also feel that I have a lot of unfinished work to do, and a lot to offer to the delegation as far as relationships built and connections made across our church. It is time for new, younger, more diverse leadership, but I can still be a valuable part of the delegation. I'd like to help us birth a new form of generous, inclusive Methodism. I also can help us elect bishops from the West, knowing many of the potential candidates.
