#### **Statement:**

I believe each person, community and congregation is sacred and worthy of a place at Christ's table. My pastoral ministry and passion is to serve rural congregations. These congregations serve a vital role in their communities. Additionally, our rural UMC congregations are often the only place where any discussion and embracing of inclusion is valued and practiced in their rural settings. The presence of these congregations within the UMC enriches our faith tradition. With my pastoral calling and experience, I offer a rural perspective and voice that is important as we work together for a church for all people.
